

I feel That the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Indiana's elephone Privacy law have improved my time at home I no longer have to wait until my food is cold or burnt, due to arguing with someone I didn't want to talk to in the first place , before I can eat it Indiana's law has been pretty effective the way it is my calls have been cut by close to 75% from telemarketers since the law has been in effect. I ask you to please not change it . Thank you
